Product Description

A revolutionary Low-VOC crystal clear acrylic coating designed to protect and beautify concrete, masonry and tile surfaces. This super-tough film gives a rich “Wet Look”, resists chemicals, abrasion and stains. It is suitable for interior and exterior use.

“WET LOOK” 2000 utilizes the same resin system as Glaze ‘N Seal’s original Lacquer, thereby providing the same dependable performance. It contains unique low VOC solvents creating an environmentally-responsible formula.

Uses

Protects garage floors and driveways from oil stains. Eliminates concrete dusting and freeze-thaw problems. Protects patio and barbecue areas from food and grease stains. Saturation with Glaze ‘N Seal will actually harden old and deteriorating mortar and plaster for added life. Independent laboratory tests rate Glaze ‘N Seal superior for abrasion resistance, sunlight resistance and stain resistance qualities.

Multi-Purpose Sealer is a clear, low gloss, water based finish to protect and beautify concrete, brick, masonry and unglazed tile.

- Water Based
- Film Forming
- Low Gloss
- Easy to Apply
- Excellent Stain Resistance
- Breathable
- Resists Mold and Algae

This sealer may be used on most concrete, masonry, brick and unglazed tile to protect and slightly enhance the surface appearance.

The durable, non yellowing sealer provides excellent stain resistance against water, oil, grease and acids on interior and exterior surfaces. It may also be applied over or under most paints. It is recoatable.

Avoid use on areas subject to standing water.
