

Steel Drum Mixers

The ultimate in heavy duty concrete mixers. Available in 4-, 6-, and 9-cu. ft. capacities, with your choice of power and drum materials.

Features and Benefits

- Wide variety of power sources
- Leaf springs standard on 6- and 9-cu. ft. mixers
- Oversized dump wheel—easier to discharge material
- 13" tires for safe towing
- Steel mixers available with 4-, 6- or 9-cu. ft. drums

Poly-Drum Models

Features and Benefits

- Wide variety of power sources
- Leaf springs standard on 6- and 9-cu. ft. mixers
- Oversized dump wheel for easier material discharge
- 13" tires for safe towing
- Polyethylene mixers available with 6- or 9-cu. ft. drums
- Poly drums simplify cleanup while resisting rust and dents

Standard Walk-Behind Power Trowels

Features and Benefits

- 24", 30", 36", 46" wide models
- Reliable gasoline engines and electric motors
- Optional Quick-Pitch Control (TM) for fast, precise blade adjustment

Model: B-4-8

Trowel is offered with 8-HP Briggs & Stratton, Robin and Honda engines.

Performance Data:

Number of Blades: 4
 Ring Diameter - IN (CM): 46 (117)
 Clutch Type: Centrifugal
 Pitch Control: Standard
 Rotor RPM: 60-125

Power Source:

Engine Model: 8 HP Briggs & Stratton, Robin, Honda
 Electric Motor: N/A

Model: J-4-5H

Performance Data:

Number of Blades: 4
 Ring Diameter - IN (CM): 36 (90)
 Clutch Type: Centrifugal
 Pitch Control: Standard
 Rotor RPM: 60-125

Power Source:

Engine Model: 5.5 HP Honda
 Electric Motor: N/A

- All units are equipped with heavy-duty centrifugal clutch
- Precision-balanced for the ultimate finish
- 3-blade spiders available
- Adjustable handle on most models

Model: B-4-2E

Performance Data:

Number of Blades: 4
 Ring Diameter - IN (CM): 46 (117)
 Clutch Type: Centrifugal
 Pitch Control: Standard
 Rotor RPM: 108

Power Source:

Engine Model: N/A
 Electric Motor: 2HP 115/230V 1Ph
