

**Cast In Place  
Replaceable  
Stainless Steel**

**ADA Solutions offers the most comprehensive detectable warning and way finding solutions for the visually impaired.**

All of our truncated dome tactile surfaces are designed with safety and convenience in mind and are in full compliance with the American Disabilities Act Accessibility Guidelines (ADAAG). ADA Solutions offers the largest selection of ADA tactile surface products for transit platforms, multi-modal transit centers, curb ramps, and just about any other application you can come up

with. Because our products have double the wear resistance of flamed granite it has a longer tile life and greater cost effectiveness. In fact our products continue to outperform all other tactile warning systems. In test after test our product exceeds the most stringent requirements for:

- Water Absorption
- Slip Resistance
- Wear Resistance
- Weathering
- Chemical Resistance
- Burn Resistance
- Detectability

The world's largest selection of ADA tactile products for:

- \* Curb Ramps
- \* Vehicular Ways
- \* Parking Areas
- \* Stairwells
- \* Pedestrian Crossings
- \* Escalator Approaches
- \* Transit Platforms
- \* Multi-Modal Transit

ADA Solutions, Inc. offers the widest selection of tactile systems for the visually impaired.
