Ideal visual barrier for crowd control, recreation, and jobsite warning barriers.

- Highly visible OSHA orange
- High strength oriented polypropylene (PP) mesh
- Exceptionally sturdy
- UV stable for long life
- Shrink wrap packaging
- Color label with UPC code on each label

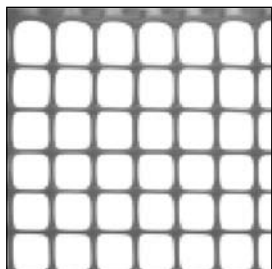

Special Order Barrier Fence

In Stock

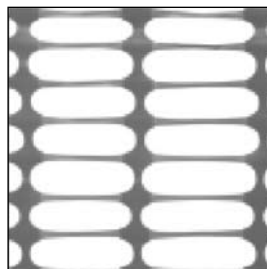

Flat Oriented Grid

High strength oriented grid provides cost effective high strength performance for construction sites, crowd control and visual barricade applications.

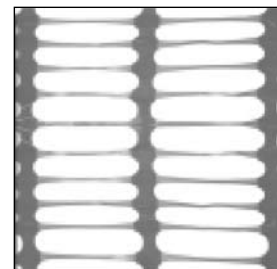

Ultimate Quality Square Grid

High strength vertical and horizontal strands make the square grid the ultimate barrier for severe jobsite and weather conditions.

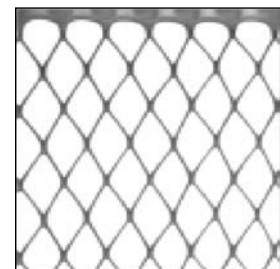

Lightweight Oriented Warning Grid

The lightweight answer to cost effective warning barricades. An ideal combination of durability and value.

Lightweight Snow Fence

Reduced porosity allowing for better performance in snow drift and sand dune building. Ideal for highway use. Available in black and OSHA orange.

Heavy Duty Diamond Grid

The durable, rigid favorite for construction barricades and crowd control. Exclusive safety edges protect materials and personnel on the jobsite during installation and removal.
